 All related consultants of the relevant institutions,
 All Divisional Pharmacists.

Informing regarding the availability of short expiry surgical items at MSD.

Please go through the attached item list, including Personal Protective Equipment (PPE) and consumables for the COVID-19 Vaccination Programme (SR Range 156), which are likely to expire during 2026 and 2027 if not utilized and are currently available in large quantities at the Medical Supplies Division (MSD).

It has been observed that the following items are slow-moving and are currently available in considerable quantities at MSD stores. These items are considered non-formulary items in the SWASTHA system.

Therefore, to minimize wastage, please make the necessary arrangements to disseminate this information among the relevant parties at your institutions and those under your purview, and advise them to assess their requirements and communicate them accordingly.

Please consider this an important matter, as this is a preventive effort to minimize the wastage of items purchased using government funds.

Your prompt attention and fullest cooperation in this regard would be greatly appreciated.

Director

Medical Supplies Division

Dr. DEDUNU DIAS
 Director - (Acting)
 Medical Supplies Division
 Rev. Baddegama Wimalawansa Thero Mw.
 Colombo 10.
